GreenPath Debt Solutions
20 N. Wacker Drive
Ste. 1928
Chicago, IL 60606

To whom it may concern:

In the interest of good faith, I would like to thank you for first opening this letter and not tossing it aside. My name is Derek Thomas and I am a native of Chicago both born & raised. My reason for reaching out to Greenpath is that the services your company offers are extremely important and greatly appreciated by those who have had the pleasure of utilizing them. If it isn't obvious by now (which I'm sure it is), I am currently in the custody of the United States Bureau of Prisons. I have been incarcerated for the last decade and I am approaching my release rapidly. To prepare for my transition I have begun to inquire about my financial situation with the Credit bureaus. I have recieved my credit reports and have successful disputed claims and had them removed. I gathered as much information I could and utilized what I gathered appropriately. In this world (prison-life) information travels fast and successes even faster. So obviously guys were approaching me to assist them in getting first their credit report & also to dispute items that were inaccurate. I have drafted only a few dispute letters and based on my minimal knowledge I have had to tell many guys, "I just don't know what you can do ...". I was able to have people go to your website for me (we do not have internet access). I had a freind set up a consultation session with one of your counselors. I was able to pass on valuable addresses, insight and information to assist those that I could help. Thank you Greenpath! Whether you no it or not but your services have helped to reduce recidivism, if only by a couple of people it has truly helped. Let me explain, see many of us in the federal penal system are here for the sale, trafficking and/or distribution of illegal narcotics.

As you can safely assume, we in that trade dealt with cash. Many of us never utilized credit or debt in a legitimate realm. With that being our reality the corporate world is foriegn to many of us. Money managment was not something we deemed neccessary and Debt was considered an extreme business hazard. Therefore we had either no credit at all & in the best case very bad credit. Our resources are limited in here & we were ~~are~~ unable to do much to help that situation before our release. Until I discovered Greenpath and was able to create solutions for many of my fellow inmate using information I recieved through a 3rd party cousultation session. Again Thank You Greenpath! It is important that a person being transitioned back into society are made available the tools needed to become and remain a pro-social member of their community. Credit & the management of it are very important tools and creates options to those who deemed cash as the only means of purchasing & paying for the neccessities and simple amenities in life. Credit & it's proper managment deters many of those, (getting out) from a life of crime. With that being said, the information your company provides vital assistance in obtaining those goals. I currently facilitate a Re-Entry Preperation Program on Finance (along with many others) and am asking for your assistance. I would really love if you could put together a packet of information that may be helpful. Honestly all the information will be helpful. But I am asking for as much information as you can possibly gather. Whether it be pamplets, packets or forms. I and the rest of the facility would be grateful. I am no scam artist, I don't charge any one for my assistance and I am 100% genuine about my intentions. I help inmates prepare for release using every avenue I have myself ventured along or have heard or seen successful during my journey. If you would like you can call the facility I am at (FCI Schuylkill) speak with my boss in the Education Department Mr. Sevison and inquire about my character. My only intention is to help guys who are getting out to not only reestablish themselves, but also maintain a life free of debt and also crime. In no particular order! (LOL) Seriously thank you for your time and I hope my Sincerity has been related in this correspondence. Your assistance will not just help me but many men and for that you should add on to your life's greatest deeds list your response to this letter.

Thank You

Derek
